Ogden, UT

EXPERIENCE

Software Engineer • Westinghouse Electric Company
September 2022 – Present

I develop ASP.Net Framework applications for Westinghouse Electric Company, primarily writing C#, React, and SQL, but also writing jQuery and CSS as needed. I work on both greenfield projects—developing applications using C#, React, and GraphQL—and the maintenance and update of older projects—using C# and jQuery. I've also done work to clean up Oracle databases and correct/modify queries for those databases.

Associate Web Developer • Weber State University
September 2021 – September 2022

I developed ASP.Net Framework applications for the university, primarily writing C#, but also writing SQL, jQuery, and CSS as needed. I provided support and maintenance for the university's CMS system. I helped to conduct user testing and I manually tested applications for bugs.

Proprietary Systems Support Technician • Weber State University
January 2019 – September 2021

I maintained and provided support for the Transact, QuadPoint, and Verifone point of sale systems on campus. I developed documentation, training, and troubleshooting materials for staff members. I also made HTML and CSS edits for my department's website and recently redesigned the site to give it a more modern feel.

EDUCATION

BS Computer Science, Weber State University
May 2019 – December 2021

- Learned C#, ASP.Net, C++, SQL, MongoDB, Python, Algorithms and Data Structures, Computer Architecture, and Software Engineering.

BS Web and User Experience, Weber State University
May 2019 – December 2021

- Learned HTML, CSS, Bootstrap, Sass, JavaScript, Vue, Firebase, SQL, MERN stack, LAMP stack, and User Interface and Prototype Design.

SKILLS

- C#, ASP.NET, C++
- HTML, CSS, SASS
- JAVASCRIPT, VUE.JS, REACT, JQUERY
- BOOTSTRAP, BULMA, FOUNDATION, MUI
- PYTHON, FLASK, DJANGO
- SQL, MONGODB, FIREBASE, ORACLE
- GIT, GITHUB
